PRODUCT USAGE

Cleans and protects the dashboard & cockpit by forming an anti-static, dirt repellent, protective film that will leave the surface free of dirt and grime.
Silicone lubricant works to reduce friction in many applications, such as stiff or seized windows and around the home. Frequent use prevents rubber from sticking or freezing and it also prevents hardening of plastics to reduce ageing.

DIRECTIONS FOR USE

Spray on interior surfaces and polish with a soft cloth. Spray liberally on exterior surfaces and lightly rub with a cloth if required. As a lubricant, spray in desired area as required and work the component. Slip will improve as friction between component and surface is reduced. Do not apply to steering wheel, pedals or glass.
DO NOT APPLY to any brake components or on tyre tread. DO NOT APPLY to running surface of motorcycle tyres as this product will dramatically reduce grip when cornering.
